A Young Man

By FRANK

Here, money, money, mo,
... be a patriot by the too,
Patriotism make him pay,
... taking all his rights away.

This seems to be the order of
the day. Protect the left, destroy
the right. In the case of two gen-
erals, Gen. Telford Taylor, better
known by his friends at the Unit-
ed Nations Gen. Taylor who blast-
ed McCarthy. Gen. Taylor
was ousted among his friends
by Stevenson, Harry Dexter
Woods, Paul Hoffman and other
worlders. Gen. Taylor who
was born in Russia in 1910. The
same general who earned a reputa-
tion in the Nuremberg trials.
This general has been picked as
a possible replacement to Allen
Barkley in the CIA.

Let's look at Gen. Edwin
Rowe, the general who advo-
cated mass participation for
the war. The man who started
the "Operation" program which
is the menace of Communism.
A program which instilled
fear in every country in almost every
country he commanded. This gen-
eral was relieved of his com-
mand.

And the movie industry which
claimed that the film "Elevend
Years" good enough for
the screens, but found the movie
"Water on Sunday" good enough
for an Academy Award.

And the press which cannot find
space to tell us of the movements
of the Communist Party in the
United States, but finds room to
talk of another type of evil that
has been dead for 36 years.
And of the State Department
which allows a country to go red
right under our noses, but is ready
to declare war on four French
countries trying to free their coun-
tries from social chaos.

And of some clergymen who
make peace on certain goals, will
advocate men and attack the very
men working toward this goal.

And the television studios
which cannot find time to tell us
the red menace to our society
which spends millions trying to

course. It has already started.
And it will continue until every
American citizen is brainwashed
into believing that his real ene-
my is that "fascist nut" living
next door to him. Could it be
these people will stop at nothing
in order to get what they want?
Will they pit religion against re-
ligion, race against race, so they
can go on behind the scenes with
their dirty little job?

And then there's the Betsy
twins, Jackie and Bobbie. Who
giggle and murmur when asked
about the anti-Communists here.
Then a week later make a speech
proclaiming the ADA (Americans
for Democratic Action) as the
true minutemen of our time.
What I'm wondering is, minute-
men for whom?

Winston Churchill once said:
"If we open a quarrel between
the past and the present, we
will find that we have lost the
future." I am sure the enemy
would love us to start fighting
among ourselves in order to ease
their burden.

To Mr. J. of Anaheim: I am
not being paid for this column
and did the editors of this paper
want the articles. Did it ever
occur that some people are will-
ing to fight for their country,
without thoughts of lining their
pockets with the gold coins of
dictators?
